agency. And so I, as you can tell, I do really object to your comments that I am carrying water for the Governor when that couldn't be further from the truth. I would ask the members to look at this amendment that is a code agency because I think it is important that you not have another commission set up, that we not create another agency like that that is going to do the total reviews. I think it needs some accountability. I think that what you have now with your board and your staffing is doing a very good job. I see no reason why they can't be accountable, why we can't look at some oversight and have a little more control on some of our agencies and with that I would ask you to support the amendment. Thank you.

SPEAKER WITHEM: Question before the body then is the adoption of the Hillman amendment. All those in favor vote aye, opposed vote nay. Have you all voted? Record, Mr. Clerk.
